Subject: Checklist for item Content

01/25/2018

Dear Eveline Nordhauss,

This checklist below shows a variety of cases where item owned content is in use by MB Kit Systems Inc. Everything listed below needs to be eliminated to apply the discount communicated in the letter from January 22, 2018.

Please note, that this list could be incomplete and could miss certain cases of misuse of the item logo or item owned content. In general MB Kit System Inc. is responsible to ensure that all item owned content and logos are eliminated by January 31, 2018 as communicated in the letter of January 8, 2018.

Sincerely,

Philipp Herrmann
VP Sales & Marketing
CFO

<p>14. Eliminating all item photos, drawings, logos and content on the MB Kit Systems Inc. Blog http://www.mbkitsystems.com/news-events/blog/entry/item-north-america-makes-linear-motion-easy.html Example:</p>	 <p>item of them document photo</p> <p>Add the carriage to the linear guide. Many of them come preassembled, but customized carriages can be put together for your specific needs and purposes.</p> <p>Add the bearing to the end of the guide. First, try placing the bolt through the profile of the bearing. The bearing is light and mounted in a way that it can be removed for the carriage to fit a customized linear motion system.</p>
<p>15. Eliminating all item photos, drawings, logos and content on the MB Kit Systems Inc. Blog http://www.mbkitsystems.com/news-events/blog/blogger/admin.html Example:</p>	 <p>Adjustable Height Workbenches: Building Healthier and More Productive Environments</p> <p>By Susan Lee 17 March 2015 10 min read</p> <p>The engineers at item workbenches (item) are designers. Creating general plans of equipment, designing and building custom workbenches with their advanced profile for customers around Europe, North America and the rest of the world is what they do. They are a team that designs advanced ergonomic principles and workbenches that adapt to each person, each job, and each movement.</p> <p>The forward thinking from the nation's top design and engineering workbenches and other systems have been recognized by Design and Construction Weekly from the (Creative Design Award), the Best (Creative Design Award) and the (Creative Design Award).</p>
<p>16. Paint the roof to cover the item logo</p>
